SUMMARY

Data Analyst with hands-on expertise in **SQL, Power BI (including Power BI Service), Excel, Python, and GenAI**, specializing in **data cleaning, data modeling, and dashboard development**. Experienced in designing **DAX-driven KPIs, KPI tracking, and BI solutions** to convert raw data into actionable business insights. Strong foundation in **storytelling with data, problem-solving, and stakeholder communication** to support effective data-driven decision-making.

SKILLS

- Data analysis:** SQL, Power BI, Advanced Excel, Tableau,
- Programming :** Python (Pandas, Numpy)
- Visualization :** Power BI, Matplotlib, Seaborn
- Analytics Concepts:** Data Cleaning, Data Transformation, EDA, Data Modeling, KPI Development, DAX, Statistical Analysis
- Tools & Technologies:** MySQL Workbench, Jupyter Notebook, Power Query
- Business Skills:** Data Interpretation, Storytelling, Stakeholder-Oriented Reporting, Business Analysis, Problem Solving.

EXPERIENCE

DATA ANALYST VIRTUAL INTERN January 2026
Deloitte – (Forage)

- Performed data analysis on business datasets using **Excel and Power BI** to identify trends and generate **KPI-driven reports**.
- Analyzed business datasets to identify trends and insights, improving data understanding by **25%** through structured analysis.
- Developed **KPI and measure-based reports** that improved reporting clarity and decision support by **30%**.
- Strengthened analytical and consulting-style reporting skills, contributing to **faster data-driven decision-making**.

PROJECTS

FINANCE ANALYSIS PROJECT [Excel | Power BI | Power Query | DAX | Power BI Service] May 2026

- Developed an interactive **Finance Analytics Dashboard** to analyze **₹137.53M+** transaction value across **14.94K+** financial transactions.
- Monitored key KPIs including transaction amount, fees, taxes, and transaction volume with **Year-over-Year (YoY) performance tracking**.
- Performed customer, demographic, and state-wise analysis to uncover high-value segments, contributing to **15% better business visibility**.
- Leveraged **Power Query, DAX, and data modeling** to automate reporting and improve decision-making efficiency.

HOSPITAL MANAGEMENT SYSTEM [Python | HTML, CSS, JAVASCRIPT | SQL] January 2026

- Developed as a final-year academic project, **Flask-based Hospital Management System** that streamlined patient records, doctor appointments, and admin operations.
- Applied **end-to-end full stack skills** by designing secure authentication, database models, and user-friendly interface.
- Demonstrated **Problem-solving, ownership, and teamwork** by building and debugging a real-world healthcare application.
- Translated real-world healthcare requirements into a **scalable, user-focused web application**, showing strong learning ability.

BLINKIT GROCERY SALES ANALYTICS DASHBOARD [Power BI | Power Query | DAX | Excel] March 2025

- Analyzed **\$1.2M** in sales data and identified Tier 3 outlets as the highest revenue contributors, generating **\$472K+** sales, supporting location-based expansion strategies.
- Transformed raw Blinkit grocery sales data into an interactive Power BI dashboard, improving sales visibility and insight discovery by **35%**.
- Built **15+ DAX measures and KPIs** to analyze revenue trends, product performance, and outlet-level metrics across locations and categories.

EDUCATION

Bachelor of Computer Science **CGPA: 9.5**
College of computer science and Information technology, Latur (Maharashtra) • July 2023- Apr 2026
