SUMMARY

Data Analyst with hands-on experience in **SQL, Power BI, Python, Advanced Excel and Power BI Service**. Experienced in data cleaning, data modeling, dashboard development, and KPI reporting through analytics projects and a virtual internship. Built interactive dashboards to analyze financial and retail datasets, transforming raw data into actionable business insights. Strong foundation in exploratory data analysis (EDA), data visualization, and business intelligence, with excellent analytical and problem-solving skills to support data-driven decision-making.

SKILLS

- **Data analysis:** SQL(Window Functions, CTEs, Joins), Power BI(Power Query, DAX, RLS), Advanced Excel, Tableau
- **Programming:** Python (Pandas, Numpy)
- **Visualization :** Power BI, Matplotlib, Seaborn
- **Analytics Concepts:** Data Cleaning, Data Transformation, EDA, ETL, Data Modeling, KPI Development, Statistics
- **Tools & Technologies:** MySQL Workbench, Jupyter Notebook, Power Query, PostgreSQL, Github
- **Business Skills:** Data Interpretation, Storytelling, Stakeholder-Oriented Reporting, Business Analysis, Analytical Thinking

EXPERIENCE

FINANCIAL ANALYST

UPS Logistics Private Limited **August 2026-Present**

- Analyze and interpret **financial data** using **Power BI** and **Microsoft Excel** to monitor **key performance indicators (KPIs)**, identify financial trends, track business performance, and provide actionable insights to support strategic decision-making.
- Develop and maintain interactive **Power BI dashboards** and comprehensive **Excel reports** to visualize financial metrics, monitor operational performance, streamline reporting processes, and support accurate, data-driven business decisions.
- Perform financial **data analysis, validation, and reconciliation** to identify discrepancies, ensure data accuracy, evaluate performance trends, and improve overall reporting efficiency and operational effectiveness.

PROJECTS

CUSTOMER CHURN ANALYSIS & INTELLIGENCE [Python | SQL | Pandas, Numpy | Matplotlib, Seaborn] **July 2026**

- Extracted and analyzed customer data from a **SQLite** database using **Python** to uncover churn trends and business insights..
- Calculated key business KPIs, including **33.94% Customer Churn Rate**, **66.06% Retention Rate**, **965.69 ARPU**, and **72,769.97 Revenue at Risk**.
- Performed **data cleaning, preprocessing, feature engineering, KPI analysis, and exploratory data analysis (EDA)** on customer data.
- Built impactful visualizations using **Matplotlib** and **Seaborn** to communicate customer behavior, churn distribution, and business performance.

INDIAN TECH JOB MARKET ANALYSIS 2026 [Excel | Pivot Tables | Data Cleaning | Power Query | KPI] **June 2026**

- Analyzed **22,301 tech job postings** from **6,945 companies** across **11 Indian cities** using Microsoft Excel to uncover hiring trends, salary patterns, and workforce insights.
- Built a **fully interactive Excel dashboard** with **10+ dynamic visualizations, 7 KPI cards, and 4 slicers**, enabling recruitment insights with **one-click filtering**.
- Identified high-demand roles, top hiring companies, salary tiers, work-mode preferences, and experience-level trends, improving decision-making through actionable business insights.

FINANCE ANALYSIS PROJECT [Power BI | Power Query | Data Modeling | DAX | Power BI Service] **May 2026**

- Designed an interactive **Finance Analytics Dashboard** to analyze **₹137.53M+** transaction value across **14.94K+** financial transactions.
- Monitored key KPIs including transaction amount, fees, taxes, and transaction volume with **Year-over-Year (YoY) performance tracking**.
- Analyzed customer, demographic, and state-wise analysis to uncover high-value segments, contributing to **15% better business visibility**.
- Leveraged **Power Query, DAX, and data modeling** to automate reporting and improve decision-making efficiency.

EDUCATION

Bachelor of Computer Science **CGPA: 9.5**

College of computer science and Information technology, Latur (Maharashtra) • **July 2023- Apr 2026**
